

GripP - Strippers 10 and 20

Function

Our newest wire strippers combine ergonomics and versatility! Strip 30-10 AWG wire and cable using only two tools for the most common types:

- electrical wire
- hook-up
- multi-conductor

Also cuts flat cable

Features/Benefits

- Ergonomic design — head and handles perfectly angled to prevent awkward wrist bends
- Rubber-embedded, non-slip handles
- Precision-ground wire stripping areas
- Non-scoring strips and smooth wire cutting
- Screw cutter and wire loops embedded in frame
- Gripping jaws on front of tool
- 1117 works on Romex cable individual conductors

WARNING! Do not use on live circuits. Not for use on steel or armored wire and cable. Always wear appropriate eye protection.

Ordering/Description	Part Number
GripP 10 (22-10 AWG/.34-6 mm ²)	1117
GripP 20 (30-20 AWG/.05-5 mm ²)	1118
